Mr. Howe said the difficulties of dealing with so large a mass of testimony and preparing a report within so short a time had been as great for the majority as for the minority, and he understood that all the members of the committee had been notified as early as Wednesday mittee had been notified as early as Wednesday or Thursday of last week that the report was to be made.

Messrs. Bayard and Casserly said that they had not heard of the report until Saturday morning, when it was read in the committee.

Mr. Buckingham (Rep., Conn.) said he was willing that the minority should have a reasonable time, if there could be an understanding that the printing of the majority report should not be delayed thereby.

THE WHITEWASHERS' REPORT.

The whitewashers' report.

The committee submit, first, that no monstrous abuse has been discovered in connection with the general order business, unless it be the misrepresentation, not to say the mendacity which has been piled upon it. The committee say that Mr. Murphy was appointed by President Grant, whose appointments have been habitually somewhat distasteful to the Democratic party. Mr. Murphy's own appointment proved distasteful to a portion of the Republican party, and so it happened, perhaps not very variative, but not very unnaturally, that Mesers, Leet & Stocking fell heirs to all the malice which the cupidity, the wealth, or the influence of two great trading companies could engender, as well as that the enemies of Thomas Murphy, the President, and the Republican party could inspire. A storm of obloquy and reproach burst upon their heads.

In September, 1870, Messrs, Leet & Stocking were quite unknown to fame. In twenty months hey acquired a notoriety never by the greatest genius, and only rarely by the greatest heroes or greatest criminals achieved in so brief a period. Twenty months ago it is probable that these young men had but seldom seen either of their own names in the newspapers. There are the probability but 150%, Rancas, mana, without the probability of the proba

The fact of preferment case of Leet upon the ground of personal is too well attested to be denied, though that theory should be exited by it. Rumor (perhaps it should be exited by it. Rumor (perhaps it should be exited with Leet, and by whom he was upon the fact of the Grover Gen. The committee accept the avowed belief of Mr. Groeley Mudgett against the testimony of Portecock, Stocking, and Grinneli. It seems were more reticant to conclude that Mr. or even Mr. Mudgett is mistaken in an borrowed only from the scandal of a cawling city, than that Leet. Stocking, Babcock, Murphy, and Grinnell have ited wifful perjury.

THE VERDICT. THE VERDICT.

Order and Gen Rabecck must stand according passectivation in the profits of shardaned goods. Col. Leet and Mr. Stockstand acquitted of all blame for seek-trust, as well as for accepting it when to them. It is evident merchandise a very faccure in the store of Leet & Heavy losses have at times occurred in other buildings, but the evidence warrant the conclusion that of all the in "Sue which have passed through the facet & Stocking, a single dollar has from them.

That testimony also clear the fact, that there was no ynor any apology for even making such so making such payments that the ry of the Treasury made an effort to that practice. Westernotow, Jano 4.—In this Seriet to Mich. submitted the make year of the Committee of Investigation is disconnection. It is very nositively derifed that the attempt of the Committee a state-onvention. It is very nositively derifed that the attempt of the Committee a state-onvention in late years is greater than it formerly was. The committee feel compelled to reject Mr. Greeley's view of the influence of the Custom House over the politics of New York. It that view does not distort the character of the Custom House officials, it must dishonor the people of New York. It does not seem at all probable that the people of New York are made of that clay which a few weighers from the Custom House can fashion into such vessels as they please.

THE LEVYING OF POLITICAL TAXES DEFENDED.

The committee can ente, ain no doubt that in the experience of political parties, as in that of religious denominations, money is sometimes needed. There can be no doubt that the night of the party, as well as members of the Church, are often asked to contribute to such needs. The committee see no reason why those who draw salaries may not as properly be invited to contribute as those who do not. They have no serious apprehension that either the members of the Republican party or the members of any Christian church will often contribute beyond their ability, or beyond the requirements of the public good; and when it shall appear that a deserving officer shall be dismissed the service of the Government, or a worthy member shall be dismissed the service of the Church, for not submitting to an unreasonable exaction, it will be time enough to restrain such contributions. It is proper to add that from the testimony it would appear that the collections are made either for disbursement out of the State or for the aid of campaigns organized within the State, and not to control primary meetings on the election of delegates.

To the Conkling faction election the political action of the New York Castare House it has

To the conkling faction of delegates.

A specific charge urged against the political action of the New York Custom House is that its patronage is controlled in the interest of a faction in the Republican party. Political events which have transpired since that charge was made have gone far to refute it. So far as is known to the committee, every individual who urged that accusation is now arrayed in open opposition to the Republican party. There is no longer any known faction in the Republican party. It is not yet quite certain whether those in January last aspired to that character are now a party by themselves or are only a faction of the Democratic party. But in January last and later it was asserted by Mr. Greeley, Mr. Whitelaw Reid, Mr. Van Cleft, and others, that the employees of the New York Custom House were habitually removed because they adhered to the so-called Fenton faction, or to make room for the adherents of the so-called Conkling faction.

The committee report the result of the testimony in regard to these removals, saying, among other things, that a number of persons who were removed from the Custom House were subsequently provided with places under the city government under the influence of Tammany.

THE COMMITTEE'S CONCLUSIONS.

A MANIFEST FACT. Assistant appraisors and examiners in the public stores should be experts. That is manifest. It is quite as manifest that to be experts, they not only must have studied, but they must not cease to study. The longer they practice their profession, the more expert they will become. GREELEY AND THE NEGROES HOW THE SOUTHERN STATES WILL

Maryland, Virginia, West Virginia, North Carolina, Georgia, Alabama, Louisiana, Texas, Tenuessee, Kentucky, and Mis-souri Sure for Greeley.

VOTE.

Washington, June 3. - The journals edited in the interest of Gen. Grant are endeav-oring to make it appear that the negro vote will be thrown solid for their imperial master, that Greeley cannot get any part of it, and that therefore it is of no use to run him. All of these arguments proceed from a gross ignorance of facts, as will readily appear by an analysis of the Southern electoral vote, and the influences which will control it at the election to be held next November.

In the first place, it is obvious to every man

that the Southern Conservatives and Democrats are to-day nearly a unit for Greeley. They are earnest, enthusiastic, and resolved for his nomination and endorsement at Baltimore, and will support him there and at the polls with an energy and vim Baltimore, and will support him there and at the polls with an energy and vim they have not shown in any political contest since the war. This heartiness does not spring, I admit, from any special enthusiasm for Greeley personally over other candidates named at Cincinnati. They would have supported any other man, if nominated there, for the same reason that they now support Greeley. They are auxious for a union with the Liberal Republicans of the North upon the broad and generous basis of the Cincinnati platform. They have suffered everything from the war kept up against them since the surrender at Appomattox, and they hail Dr. Greeley's nomination as the symbol of a true and genuine peace and reconciliation between the two sections, a restored citizenship, and the building up by joint effort of a great country with a great future. The enthusiasm with which they accept Greeley is the exact measure of their desire to escape a prolongation of the present cruel, corrupt, and vengeful rule of President Grant. Hence it is that you can hardly find a man among the Southerners who would not prefer Greeley to Grant. There may be a hundred or so Democrats here and there in the whole South who would go off, and they are mostly bought up by some job or promise of patronage; but this slight loss would be abundantly replaced by many thousands of white Republicans who are discusted with Grant, and indignant at the violation of his promise of peace to the country.

This Conservative vote, controlled by the usual

dantly replaced by many thousands of white Republicans who are disgusted with Grant, and indignant at the violation of his promise of peace to the country.

This Conservative vote, controlled by the usual party machinery in the Southern States, is all that would be needed to give nearly all of them to Greeley and Brown. First, there is Maryland, with Selectoral votes, where the Democrats have from 15,000 to 18,000 majority. This State is warmly for Greeley. It does not matter at all how the negro vote be cast; the vote is certain to go for the candidate the Conservatives prefer, and this man, just now, is Horace Greeley.

Next, you have Virginia, with II electoral votes, which is all ablaze with enthusiasm for Greeley. In this State the white majority is 40,000 or 50,000, and the Conservatives have a very heavy majority. In the election of 1862, Gilbert C. Walker received over 18,000 majority, although many conservative whites were reluctant to vote for one they knew very little of and regarded as a carpet-bagger, no better than Wells, and notwithstanding, also, that there were 25,000 white Conservatives disfranchised by the Reconstruction acts. All these are now voters, and without the aid of other negroes than those who usually vote the Conservative ticket, Greeley's majority in Virginia would be at least 30,000, and may reach as high as 50,000.

I may add, just here, that the disposition of three-fourths of the Virginia Conservatives seems to be to go for Greeley anyhow, as maitter what the Baltimore Convention may say or do in the premises. They do not mean to be dragged into an old Bourbon stand-up fight, with certain defeat staring them in the face. Nothing can induce them to go back on the Liberal alliance.

North Carolina has 10 votes, and is almost equally unanimous for Greeley. In 1867 the whites registered 32,000 majority, and to-day when the states and season the conservative majority.

State the Grant Radicals are in a woful minority and conscious of their weakness. At the last election for Governor they ran no ticket. Now, it does not matter whether the Grant party run a ticket or not; they are sure to be beaten. At the election for Congress in 1870 the Democrats swept the State by 26.83 majority. In a full vote they could carry it by 40.00 easily for Greeley or anybody else they chose to go for.

The Conservatives in South Carolina and Georgian for Greeley, and the decid would lose. But it would not lose in them 50 votes, all told, with Grant as the alternative to Greeley. Florida has 3 votes. The State is close, and everything here turns on the question of a fair election. The Conservatives carried the State last time by a small majority and were cheated out of it by the carpet-bag canvassers. There is no doubt that the State can be carried for Greeley, unless fraud and violence be employed to defeat him.

Alabama has 10 votes. In 1870 she chose a Democratic Governor by L.41, and there was a Democratic Governor by L.41, and there was a Democratic Governor by L.41, and there was an Democratic majority for Congress of 2.82. The accessions of width Republicans alone would swell this to over 5.00, even if Greeley received no additional colored votes. The State is certain for him if endorsed at Baltimore.

Mississippi has 8 electoral votes. There is a neuro majority, I believe, of about 16.00, and without a division of this vote it must be conceded that Greeley could not carry the State, it is usually set down as certain for the Republicans, but the Democrats made a hard and close fight for the Legislature last autumn, and if Gov. Alcorn shall go for Greeley, as some think he maily will, Mississippi will be more apt to go for him than for Grant.

West Virginia has 5 votes. At the last election for Governor the Democrats had 2.123 majority, but a great many Conservatives were then disfranchised who now are able to vote. The majority for Greeley will be from 10.900 to 15.000. The colored vote is

eeley.
Louisiana has 8 electoral votes, and has been rried for years by open, shameless fraud for e carpet-bag dynasty. This party are now pelessly divided, and one wing is for Greeley, the Democrats take up Greeley he is sure of e State by a large majority. There is a plot of e Grant Radicals to terrorize New Orleans bayenets, but it will not avail against a popuruprising.

by bayonets, but it will not avail against a popular uprising.

Tennessee has 12 electoral votes and a large white majority. She gave a majority of 37,473 for a Democratic Governor in 1870, and may be relied on to give Greeley 50,000 majority in November next. The State is for him beyond all doubt or peradventure.

Kentucky has 12 electoral votes. She gave 37,-156 majority for Leslie, Democrat, in 1871, in a hotly-contested election—the Republicans making great efforts to reduce the Democratic majority. The State would certainly go for Greeley, if endorsed at Bultimore, by a very large majority.

Missouri has 15 clectoral votes, and with her enfranchised voters has a Democratic majority which is certainly not less than 40,003 or 50,000. That Greeley could get more than this, that he is sure of the State, will be conceded by every intelligent man who knows anything of the facts. As to Arkamsas with her six votes, all depends there on a fair election. Clayton and his faction have carried the State heretofore by gross frauds. The indications now are that a portion of the Republicans will units with the Democratis in support of Greeley, and thus make a majority so large as to defy any tampering with the ballot-boxes. It is probable that the system of terrorism will be broken down, and if so, the result is certain.

This calculation has been based, you will see, upon the assumption that Greeley does not get

This calculation has been based, you will see, upon the assumption that Greeley does not get any more negro votes than the Conservatives have been in the habit of getting in the States mentioned. What is the result? We have certain for Greeley: Maryland, 8; Virginia, 11; West Vuginia, 5; North Carolina, 10; Georgia, 11; Alabama, 10; Louisiana, 8; Texas, 8; Tennessee, 12; Kentucky, 12; Missouri, 15; making in all 110 electoral votes.

The doubtful list includes North Carolina, 7; Florida, 3; Mississippi, 8; and Arkansas, 6; in all 24 votes. I should not be surprised if Greeley were to carry every one of these States.

In 1863 the "True Republicans" and Conservatives secured in Virginia a number of negro votes—probably from 5,000 to 10,000. They carried for the Legislature a number of countles, in which the African vote largely preponderated. They have done the same at the elections held in Virginia since that time. In North Carolina the Conservatives have also secured a portion of the negro votes, though a smaller number, I admit, as they have also in Alabama, Mississippi,

Kentucky, and other States. In Georgia they have always polled a very large negro vote, say 15,000 to 20,000. If Dr. Greeley shall be the candidate against Grant, as all the signs of the times indicate, I have no sort of doubt that he will poll a very large negro vote in the South. The canvass for him will not be a very difficult one, as it will be easy to show all his acts and words that he has ever been the steady friend of the black man. In addition to this fact, it is the nature of the negro to side with power, and when it is made apparent by the summer and fall elections at the North that Greeley's election is assured, you will see the colored element going over bedily to the Greeley ticket. It will be a stampede, and the result will be a perfect surprise to many who, not going below the surface, have taken no account of the relative strength of parties in the South and the causes which are at work to produce a change in this body of voters.

Another fact I must not omit to note is the effect of the late Amnesty bill. This will enable a hundred thousand more men of superior capacity to offer for State and local offices. These gentlemen are the social leaders of the South, and the negro will know and respect them as such. He will take a pride in voting for them, which he has not accorded to those who up to this time have been the only class in the South eligible to office. You must, in estimating the negro vote, make a liberal allowance for the effect of this idea upon the colored race.

In conclusion, I will only add that from all the information I can obtain—and my opportunities of learning Southern opinion are certainly not inferior to those of others—I feel assured that those States will cast nearly a solid vote for Greeley at Baltimore. There may be a break in Kentucky, but in no other State, and my last advices report Kentucky for Greeley by three-fourths.

FINANCIAL AND COMMERCIAL. TUESDAY, June 4-P. M.-Wall street present-TUESDAY, June 4—P. M.—Wall street presented its usual scene of quiet and dulness to-day, the cold and cheerless rain storm adding to the spiritlessness of the occasion. The stock market opened firm, and prices making some improvement, ruled strong until after midday, the buyings of certain strong parties tending to keep the market well supported. The afternoon brought with it lower prices, and a droopleg tone to the market, which finally left off weak, the offerings being in excess of the demand from buyers. Northwestern common yielded 134 \$\mathbf{P}\$ cent., and Rock Island \$\mathbf{N}\$, the annual meeting of the stockholders of the latter company

inlated by present and prospective large com shipments. The general belief that England will withdraw from the Geneva Tribunal is not encouraging to expectations of our balance of trade being liquidated by any species of traditional trade being liquidated by any species of traditional commercial bills making, and the extraordinary rise in United States bonds makes these securities so difficult to obtain that they are practically of no use as an agent for reiniting purposes. Aside from the natural reasons for an advance movement in gold, it is quite boldly proclaimed by the buil faction in the Gold Room that they will before the month is over, so squezze the short interest in the market as to make gold for delivery worth one or two is cent. I may be undertaking is a hazardous one in view of the large coin balance lying lide in the first state of the large coin balance lying lide in the first state of the large coin balance lying lide in the first state of the large coin balance lying literated and the unreasons are successful to the street with \$8,00,000. 92 PORTLAND AV., BROOKLYN, Feb. 22, 1872. DEAR SIRS: I have some half dozen families in my practice who have been using Dr. Pitcher's Castoria for different lengths of time. I have watched its effects with great pleasure, and find that it is wonderfally efficacious as an aperient and taxative, and is narrhiese and reliable. It is so well adapted to the derangements of children that I can recommend it as superior to any remedy known to the public. It is very agreeable to the palate, which to invalids and persons with weak

stomachs is a great consideration.
